

Seventy2 Capital Advisor Receives CAIA® Designation

FOR IMMEDIATE RELEASE: Bethesda, MD, December 11, 2018 – Congratulations to Seventy2 Capital Wealth Management Vice President and Financial Advisor, Michael Levitsky for attaining the distinguished Chartered Alternative Investment Analyst® designation.

The CAIA® Charter has been the global benchmark for alternative investment education since 2003. Co-founded by the Alternative Investment Management Association, the global trade association for the alternative industry, and the Center for International Securities and Derivatives Markets at the University of Massachusetts, a leader in alternative investment research and education, it is a highly sought after mark of achievement in the field. CAIA® Charters are recognized for their specialized knowledge of alternative investments (e.g. real assets, private equity, hedge fund and structured products) and emphasis on maintaining high professional standards and ethics.

In a period of expanding investment products and structures, and for professionals who look to deliver personalized solutions, the CAIA® Charter curriculum provides the knowledge necessary to specialize in alternative, primary market structures. Research has shown that institutional and high net worth investors can achieve higher risk adjusted returns when incorporating alternative platforms such as hedge funds, private placement, and structured products.

“Michael’s successful completion of the CAIA® Charter is a testament to his exceptional knowledge and commitment to the wealth management profession,” said Thomas Fautrel, Co-Founder and Partner of Seventy2 Capital Wealth Management. “The subject matter is among the most complex and sophisticated in the investment industry. We are proud of his dedication to furthering his knowledge of alternative investments in order to better serve the investment needs of our clients.”

Michael currently serves as the head of investment research for Seventy2 Capital. As such, he manages the discretionary portfolios for risk-based models and provides custom-tailored investment solutions for clients of the firm. He began his career as an advisor at Morgan Stanley after working as a consultant to the Grameen Foundation and Grassroots Business Fund where he conducted valuation and research in the fields of microfinance and impact investing.
